

GARDENERS CHECKLIST

1. Late-flowering sweet peas can be sown now for bloom next spring and summer. Work the soil deep, with plenty of manure under the seeds.
2. The deadline on Dutch Iris is approaching. They prefer early rather than late planting. You can't wait much longer and expect the best results.
3. Broccoli, cabbage, Brussels sprouts, chard, cauliflower, peas and lettuce are on the list of vegetables to be planted this month.
4. A few packets of wildflower seed, broadcast in a vacant lot or in an out-of-the-way garden spot will do wonders toward brightening life next spring.
5. Primula malacoides, the Fairy Primrose, is a good bet for late winter and early spring edgings where winter is not severe. Give it loose, rich soil, a fair amount of shade and plenty of water for best results.

**Only modern Gas ranges
offer you these**

3 FEATURES

The new Gas ranges look like pure pleasure. They cook like it, too . . . for the first time in today's Gas ranges come equipped with three wonderful features: 1) Two top burner heat control; 2) Even heat thermometer; 3) Safety burner. See a demonstration of these features—and many others—at your Gas range dealer or Gas Company showroom.

1. TOP BURNER HEAT CONTROL
makes any pot removable . . . cooks perfectly! As you do not get the thermometer, the "burner with a timer" takes over. The control cannot take the pot's temperature accidentally . . . turns the flame up or down as needed to maintain the exact level of heat you desire. No boil-over . . . no scorching!

2. OVEN MEAT THERMOMETER
lets you know when meat is done . . . even when it's not visible. No pots or pans necessary. Just insert the thermometer into the meat . . . forget it. When your meat reaches desired doneness, oven heat will automatically

stop . . . no more overcooked meat.

3. ROTARY BARBECUE
lets you enjoy foods, many meat with delicious charcoal type flavor. No fuss or mess because smoke and spitfire disappear in the blue flame flame. And as with heating, gas lets you barbecue with the broiler door closed.

Refreshments were served by Mrs. Simpkins and Mrs. Montgomery.

These are necessary additions to General Hospital, Hall said, "to relieve intolerable overcrowding at the hospital that is providing neither the proper patient care nor efficient use of tax dollars supporting this institution."

Hall, a resident of Torrance, said the board of supervisors has reported it will order this necessary construction regardless of the outcome of the election.

"The issue is whether to pay for the building programs with a tax levy of 14¢ to 15 cents on next year's tax bill or to spread that cost over the term of 20-year bond issues sharing the expense with future taxpayers, at the rate of less than one cent a year," Hall said.

No reservation is necessary.

Ivar Hanson**To Lead Fund Drive Group**

Ivar H. Hanson, president of the Rancho Palos Verdes Corp., will lead the Southern Region's 1958 fund raising appeal for the American Red Cross next March.

The appointment for this region was made this week by the Los Angeles Chapter's 1958 campaign chairman, Frederick L. Schnell, who is currently conducting a survey of Red Cross service "in the interest of activating a fund raising program that will graphically illustrate the organization's need for added financial support."

In accepting the chairmanship, Hanson indicated that he plans to carry out Schnell's plan on a local basis while proceeding immediately with the organization of top fund leadership for the region's six community areas: San Pedro, Wilmington, Palos Verdes, Gardena, Torrance, and Lomita.

Well known in industry and government fields where he has held several administrative jobs, including a Navy Department position in the office of Secretary Forrestal, the new chairman steps into Red Cross fund work for the first time.

He is a member of the University Club, president of the Portuguese Bend Club, and makes his home at 15 Clemmon Lane, Portuguese Bend, with his wife, Elizabeth, and their two children, Ralph and Linda.

Interment was in Inglewood Park Cemetery.

Former City Attorney Says 'Yes' on DEF

Passage of Propositions D. E. and F, the Los Angeles County General Hospital Bond issues, was urged yesterday by James M. Hall, former Torrance city attorney.

The three bond issues totaling \$14,913,000 would finance construction of an outpatient clinic, a building housing the School of Nursing and resident nurses and living quarters for interns and resident physicians at General Hospital.

"These are necessary additions to General Hospital," Hall said, "to relieve intolerable overcrowding at the hospital that is providing neither the proper patient care nor efficient use of tax dollars supporting this institution."

Hall, a resident of Torrance, said the board of supervisors has reported it will order this necessary construction regardless of the outcome of the election.

... The Torrance Story

DESCENDED from Pan American of all tracing itself back through pure-blooded generations born in Mexico to earlier ancestors of good lineage in the province of Catalonia, in northeastern Spain.

The record of this family begins with Juan Jose Dominguez, the hardy soldier whose name first appears on the roster of the pioneer expedition sent north in 1769 by the Viceroy of New Spain to begin the colonization of Alta California.

(Read in *The HERALD* Thursday how Juan Jose Dominguez took possession of his 75,000-acre grant in 1769.)
